

Action On Hearing Loss

At Action on Hearing Loss our work includes providing high quality support and care so people confronting deafness, hearing loss and tinnitus have their needs met. We fund research to find a cure for hearing loss and encourage the take-up of new technology and medical treatments to help manage the condition. Plus, we campaign for equality, so the people we support can make the same life choices as everyone else. We offer practical advice to help people protect their hearing, we also supply communication services and training for people affected by hearing loss, including businesses.
